

The Financial Gaming Platform

TradeSmarter is a technology and applications provider of binary trading solutions to a fast-growing financial trading market.

"Will the Euro/dollar close above or below the current price?"

Financial betting is simple, quick, profitable and the latest trading method to storm the financial world.

How can your business get in on the action?

Partner with TradeSmarter and you will receive a fully customized, secure and innovative trading platform, that requires minimal integration. Our short-time-to-market platform will expand your offerings into the exciting online financial-trading arena.

All technical aspects are handled by us and our research and development team will constantly update your platform with the latest features. There are no developmental costs; instead we provide all of this for a revenue share, so that as you benefit, we benefit.

Platform Features:

- Full customization
- Selection of financial games
- Advanced notification system
- Comprehensive reports
- Multilingual platform

An advanced modular open standards platform (API) enables TradeSmarter to bring you the next generation in financial gaming.

"The TradeSmarter platform is an ideal fit for online companies, who wish to benefit from the booming financial gaming segment."

Financial games on the Tradesmarter platform include:

- Binary options
- Trading competition
- Pool trading
- P-2-P trading
- Prediction markets
